Head of Consulting and Customer
Success, LexisNexis®

Innovation Momentum 2022: The Global Top 100

Who is leading the innovation race? Find out in the "Innovation Momentum 2022: The Global Top 100" report

To uncover forward-thinking patent development and spotlight true technological contemporaries across industries, a first-ever report measuring the dynamics of innovative strength over the last two years and recognizing technology owners who outperform their peers is now available. The result is a more inclusive list of innovators, capturing not only mature multinational innovators but also small start-ups with early disruptive innovation.

In the report, you will find:

- An explanation of the new methodology used to determine the list.
- The complete list of the most innovative companies across the globe
- A breakdown of the industries experiencing the most innovation activity.
- A regional analysis of innovation
- A deep dive into 3 highly innovative industries.

Motivation

The Motivation for the **Innovation Momentum** development is to have a method to **identify patent portfolios with a high momentum in its development** over time which

- is wholly transparent, building on the Patent Asset Index methodology
- captures year-on-year changes to portfolios
- identifies young, strong, small patent portfolios
- identifies large, well maintained patent portfolios
- is applicable to different categories like technologies, industries, patent owners, or geographical regions

The Methodology: Based on the Patent Asset Index™

**Technology
Relevance**

**Market
Coverage**

Competitive Impact

Individual strength
of a patent family

**Patent
Asset
Index™**

Innovative strength of
a patent portfolio

Objective, transparent,
and scientifically validated

The Methodology

The Methodology

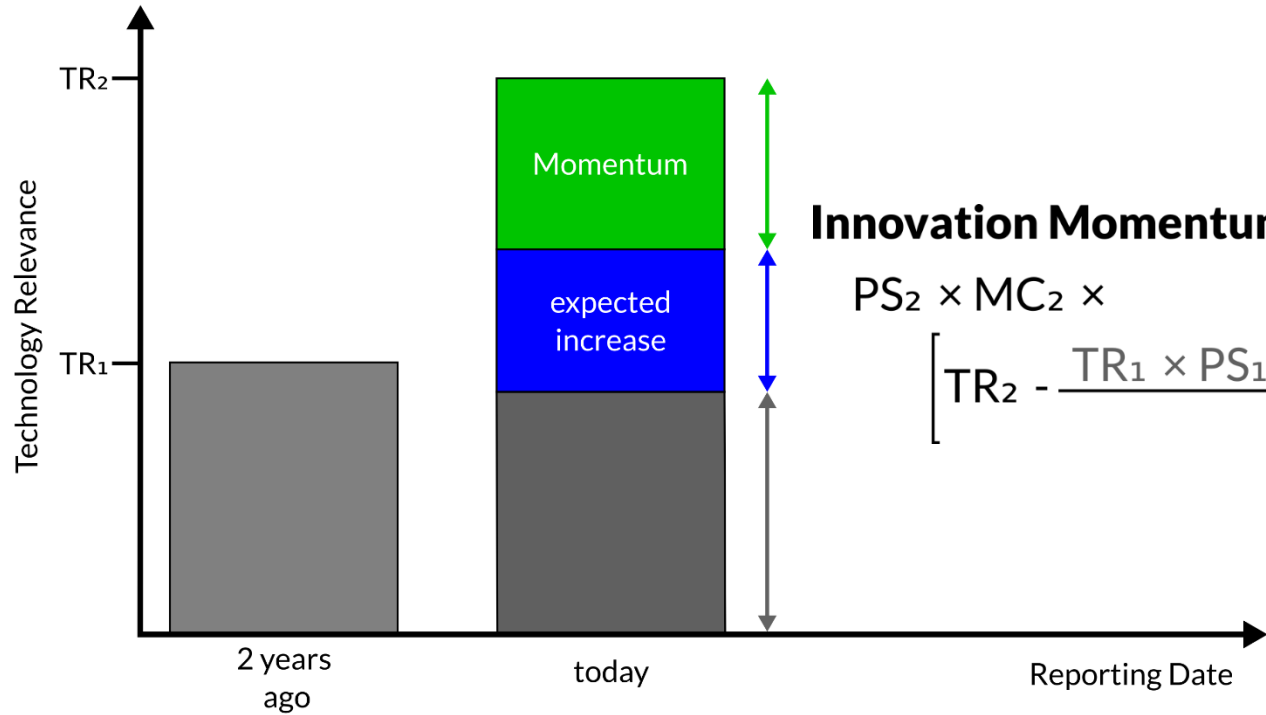

The Innovation Momentum is the portion exceeding the expectations.

Expected change in Technology Relevance based on change in Portfolio Size and database average Technology Relevance

The Technology Relevance from 2 years ago in today's terms

The Methodology

Innovation Momentum =

$$PS_2 \times MC_2 \times$$

$$\left[TR_2 - \frac{TR_1 \times PS_1 + (PS_2 - PS_1) \times 1}{PS_2} \right]$$

The Top 100 Quality vs Quantity

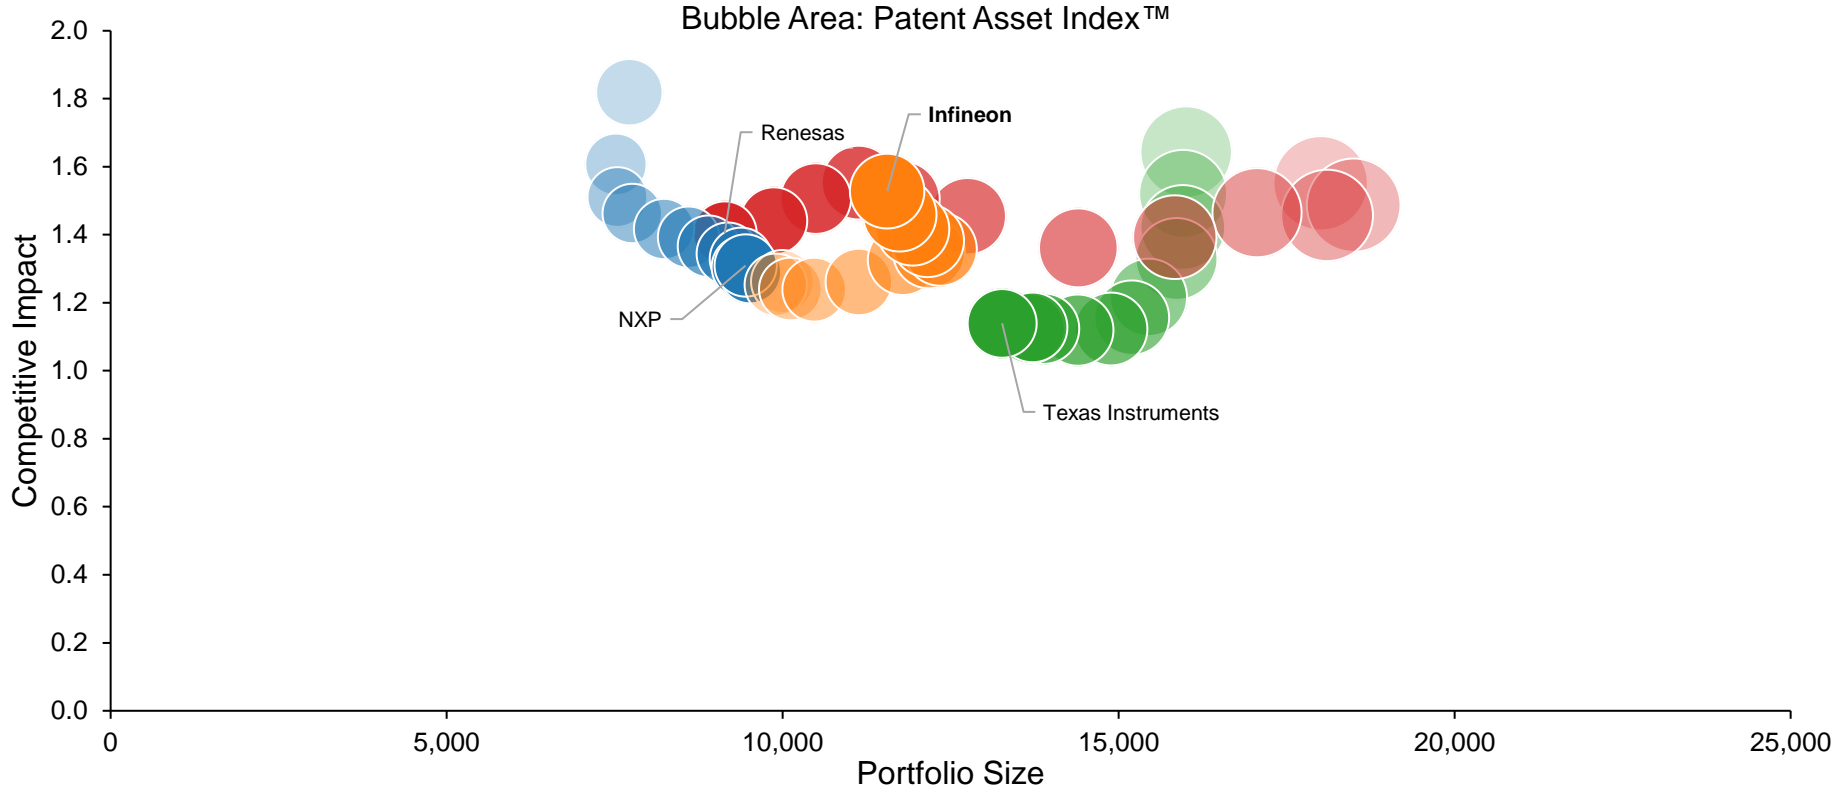

What is your view on the metrics used in the report, and how does your organization use such metrics internally?

Why is your organization doing differently from other companies to be ranked in the top 100?

InterDigital's Competitive Landscape

Infineon's Competitive Landscape

Q&A
